

# **CAT PUMPS**

## **WILDLAND FIRE FIGHTING**

## **FOAM PUMP SYSTEMS**

Reliable High Pressure, Low-Flow Systems  
for Brush and Grass Fires

- Portable gas engine driven systems from 4 to 13 Hp units.
- Standard or custom systems available.
- High pressure throws water/foam up to 45 feet.
- Low flow conserves water and foam allowing longer time on the fire line.
- Uses lightweight 3/8" or 1/2" hose.
- High pressure system can use up to 300 feet of hose without loss of performance.
- Twin foam gun has straight stream for distance and penetration; wide angle nozzle for coverage.
- Foam injection system is factory set at 1% injection rate.
